## Museum Bill Is Sent To Governor

### Measure Passes Assembly

Transfer To Coloma Is Provided By Legislature

SACRAMENTO—Legislative action on a proposal for the state to acquire the James W. Marshall museum, now owned by Miss Margaret Kelly of Kelsey, and transfer it to a suitable building in the Marshall state park at Coloma, was completed yesterday.

The bill now goes to Governor Merriam for his approval.

Sponsored in the Senate by Senator Pierovich of Jackson, and in the Assembly by Assemblyman Mayo, the measure carries an \$18,000 appropriation.

Of this amount approximately \$7,500 will be paid to Miss Kelly and associates who, through the years, collected and preserved many mementoes of the man who discovered gold in California.

The balance of the amount will be expended in providing an adequate water system on the Marshall park.

Included in the museum purchase will be the historic Marshall blacksmith shop.

Miss Kelly, a pioneer resident of Northern California, knew Marshall personally.

Purchase of the museum was proposed by the Native Sons and Daughters.

### "Buddy Poppy" Sale May 29

V. F. W. To Conduct Annual Event For Disabled Comrades

The annual "Buddy Poppy" sale in Placerville, by the auxiliary to Sierra Nevada Post No. 2680, V. F. W., will take place on Saturday.

The "Buddy Poppies" are made in veterans' hospitals throughout the nation by disabled men, and a portion of the proceeds of the annual sale goes to their benefit during the year. For many of these men, this is their sole gesture toward a useful occupation and the success of the Poppy sale, aside from making many little extra comforts possible for them through the year, also gives them the satisfaction of accomplishment.

Annually since 1922, the V. F. W. has conducted a Buddy Poppy sale as a means of raising money to support its activities in behalf of disabled and needy veterans together with their dependents as well as the widows and orphans of departed comrades.

Every member of the V. F. W. and its auxiliary can well be proud of the good which this organization has accomplished through the proceeds of the annual Buddy Poppy sale. Lives have actually been saved, health restored, destitution relieved, sickness and suffering mitigated, worthy comrades have been assisted in their legitimate claims for government compensation. It is not exaggeration to state that in its annual Buddy Poppy alone, the V. F. W. fulfills its vows of comradeship, of patriotism and of service to this nation and its people.

The annual Buddy Poppy sale affords members of the V. F. W. and its auxiliary, an opportunity to participate in this most representative activity. The fact that the little red poppies are assembled by disabled veterans in government hospitals throughout the country is in itself appealing, for we know how much this occupation means in the empty lives of our disabled heroes, and we recognize their imperative need for the small earnings they can make through this employment.

Mr. and Mrs. J. A. Wilson of San Francisco, spent the week-end at the Shepard ranch. Mrs. N. C. Gross returned to San Francisco with them and will spend the week there.

### Will Represent Eldorado County

MISS EVELYN WINIFRED BERRIMAN, a senior student at the Eldorado county high school at Placerville, will represent Eldorado county in the outdoor girl contest at the California Rodeo here July 15-18. Miss Berriman is the daughter of Ranger and Mrs. R. C. M. Berriman of Eldorado National forest.

### Will Ober Is Suicide

Ill Health Cited As Aged Native Hangs Himself

Will Ober is dead. He was found shortly after 11 o'clock Wednesday morning in a shed at the family residence on Myrtle Avenue. Left alone for a few minutes, he had hanged himself; a fate he sought as a result of despondency following a stroke about six months ago from the effects of which he had never recovered.

Mr. Ober was a native of this county, 73 years old. In early life he engaged in mining and he was for many years employed by the irrigation district as a ditch-tender. For some years he had been retired.

Surviving him are his wife and one brother, James Ober, and two half-brothers, George and John Luce, in addition to several nieces and nephews.

### GEORGETOWN TO HOLD RITES SUNDAY

Memorial Day services will be held at Georgetown at 10 o'clock Sunday, May 30, under the auspices of El Dorado Parlor, Native Daughters of the Golden West.

The services will be conducted in the I. O. O. F. hall and El Dorado Parlor will be assisted by the members of Georgetown Parlor, Native Sons of the Golden West.

A firing squad from El Dorado Post No. 119, American Legion, will conclude the services at the cemetery. The public is invited to attend the exercises.

### Hospital Contracts For June Let

Contract to supply groceries to the county hospital for the month of June has been let to the Kelly Grocery, upon a low bid of \$130.41, it was announced Wednesday by Steward Warren D. Tobey. The meat contract was awarded to Forni's Market, their bid being low.

A popular young matron was honored on her birthday Monday at a bridge luncheon at the home of Mrs. E. R. Brander. Honor guest was Mrs. E. Ogden Hook. Mrs. R. Healy won high score and Mrs. H. P. Brown was second high.

### 3 Chinese Lend Us Their Ears

By FREDERICK C. OTHMAN  
United Press Staff Correspondent  
WASHINGTON (UP)—The Bureau of Customs today authorized importation of half a dozen human ears from China.

This meant no relaxation of the immigration laws. The owners can't come along with their ears. They must remain in China while their carefully wrapped and refrigerated ears make the long journey to Indianapolis, Indiana.

There they will be used by a pharmaceutical house for experiments in plastic surgery technique, as developed by a Chinese savant. He said he needed six ears of his countrymen to continue his work. He also arranged never did learn how. The bureau is a never did learn how. The bureau is a little weary of the ear problem. It has had an ear full.

The questions were these: Is it legal to import three pairs of Chinese ears without the usual Chinese joined thereto? If so, how much is the duty? The bureau decided that there was nothing prohibiting importation of ears. The next thing was to apply duty on them. It flipped its list to the "Es" and read a couple of hundred things beginning with "E."

There wasn't an ear in the book, except elephant ears, and they turned out to be a kind of leafy bush. That left the customs bureau with only one possible decision. It has to list ears, Chinese, unattached, as merchandise, undutiable.

C. C. Tidd was a caller from Springvale section Wednesday.

### Trio Guilty In Grand Theft

Fair Oaks Youths Ask Probation; Hearing Saturday

Judge George H. Thompson has set Saturday at ten o'clock as the time for receiving the report of the probation officer and for passing sentence on Orrin Lindeville, Robert Cooper and William Cooper, all of Fair Oaks.

The three, arrested the latter part of last week by Sheriff George Smith and Deputy William Bathurst, waived a preliminary hearing on Tuesday and later, in Superior Court, pleaded guilty and asked probation.

They were arrested on the complaint of Elwood Morey, of Grizzly Flat, who charged them with the theft of amalgamating plates from his mine there.

### NATIVE SONS TO NAME HEADS JUNE 8

Officers who will head Placerville Parlor No. 9, N. S. G. W., for the ensuing term, were nominated at the regular meeting of the parlor on Tuesday night.

W. A. Austin becomes the Senior Past President and Ellsworth Willard is the new Junior Past President.

Other nominees are, for president, V. J. Leonardi; first vice-president, Leo Ench; second vice-president, George Duffy; third vice-president, Robert E. Roberts; recording secretary, Clyde R. Berriman; financial secretary, T. F. Lewis; treasurer, Lester McKenzie; marshal, James Lonigro; inside sentinel, Charles Bloom; outside sentinel, John A. Raffetto, Jr., and trustee, Joseph Quigley.

The election will be held June 8th.

### 1c CHECK

ST. LOUIS (UP)—A one cent check issued by the United States Treasury to correct an error in bookkeeping, was prized as a souvenir today by Edward Gorman, a war veteran. When Gorman received his bonus money check it was one penny short. The government mailed him the balance, although Gorman said he was perfectly willing to let the matter drop.

Birth of a son, Theodore Glen Swartz, to Mr. and Mrs. Henry R. Swartz of Greenwood, on May 14, was of record Wednesday at the courthouse.

### Council Favors \$50,000 Bonds For Sewer

Joint Statement On Election June 1st Issued Wednesday, Submitting Issue To Voters

"In submitting the proposed \$50,000 bond issue to the voters of Placerville on Tuesday, June 1st, the City Council is taking a step that has been in contemplation by the present Council for over six months and which has been seriously considered by every City Council for the past 12 years," says a signed statement issued by the Council on Wednesday.

"At all times all City Councils have realized the menace to health not only of the citizens of Placerville, but of the residents of the territory supplied by irrigation water lying west and south of the city and have fully realized that at some time the city will be compelled by the State Board of Health to install an adequate and sanitary system for a sewage disposal. In fact, this action by the State Board of Health has only been delayed by the knowledge that the City Council was giving serious consideration to the question. Realizing this situation the city has always endeavored to keep its bonded indebtedness down to a figure so that, if necessary, the city would be able to finance a bond issue of sufficient size to install the proposed project.

"On July 1st, of this year, the total bonded indebtedness of the City of Placerville will be \$84,500 and if the proposed bond issue is authorized next Tuesday, the total will then be \$134,500. The city is at present retiring this bonded indebtedness at the rate of \$5,500 per year.

"The existing system of sewage disposal, which has been in operation since Placerville was first founded, is not only unsanitary and unsatisfactory so far as the city is concerned but, inasmuch, as the water is carried to the irrigated territory south and west of Placerville constitutes a menace to the health of the entire county, for certainly the percolating waters or seepage waters from the irrigation canals must find its way in spring and wells the water of which is used for domestic purposes and for the purpose of watering stock a more unsanitary method of sewage could not be imagined.

"The estimated cost of the proposed sewage disposal plant and the new sewer mains is \$76,000, and allowing for unanticipated costs the City Council has estimated this cost to be \$80,000, thus it will be seen that the proposed bond issue of \$50,000 will not be adequate to complete the entire project and it is planned to obtain a grant of sufficient funds from the federal government to enable the city to complete the project. In fact, the ordinance calling the special election for Tuesday, June 1st, provides that the bonds will not be issued or sold unless the city obtains a governmental grant in a sum sufficient to complete the entire project.

"Inasmuch, as the government is curtailing the amount of grants in these projects, the City Council fully realizes that this is probably the last opportunity the City of Placerville will ever have of obtaining outside help in the construction of its sewage system and its sewage disposal plant and feels that it is the duty of the City Council to give the people of Placerville an opportunity to take advantage of such a grant for it is certain that at some time, in the not far distant future, the City of Placerville will be required to construct the proposed improvements and that if it can be done at this time (Turn to Page 4)

### BLAIR'S P. T. A. ENDS YEAR ON JUNE 8

The Blair's district Parent-Teacher Association will close the school year with an out-of-door meeting on Tuesday evening, June 8.

The meeting will convene at a pot-luck supper and will be followed by the school graduation exercises, honoring a class of three pupils, Margaret Paugh, Edith LeVitt and Buster Visman.

The children will present a program arranged and directed by Miss Hermle and all parents and patrons of the district are invited to attend.

Among the projects of the association for the next school year is one to inaugurate and support a group of Camp Fire Girls. Mrs. A. Stanley has been named chairman of a committee on ways and means and Miss Muriel Hermle, teacher, will have charge of the group.

James Duane has moved here with his family from San Bernardino and has been engaged as manager of the body repairing department of the Cannon Chevrolet Company.

### Attention Property Owners

Property owners of the City of Placerville are requested to clean up weeds and other refuse about their places, likely to become a fire hazard.

In the event of failure to do this, the city has the authority to order the work done and make the expense thereof a lien against the property.

By order of the City Council.  
JAS. P. MORTON,  
Marshal

**FAMED GEMS**—Preparing to make a new picture, here is Greta Garbo wearing in Hollywood the elaborately carved emeralds, sapphires, pearls, rubies and other precious stones given by Emperor Napoleon to Empress Marie Louise in 1811, on the birth of their son. The movie company borrowed them from New York collectors for the new picture.

National Open Marathon of 72 holes, spends most of his time teaching new tricks to his old dog, Jerry. Jerry is here now and, if kicked hard enough will dutifully do somersaults, hand stands, and back flips. He followed Billy the full 18 holes today and didn't get in the way more than 200 times. Mrs. Byron Nelson knitted her husband a pair of socks while he shot his 68. And when he missed his putt for a 67 she dropped at least ten stitches. The most philanthropic gent we have met in many years is the Pittsburgh bookmaker who came out yesterday and generously offered odds of 6 to 1 on Harry Cooper; 8 to 1 on Sammy Snead, and 7 to 1 on Henry Picard, Horton Smith, Paul Runyan and Gene Sarazen. He did not get much play because the newspaper boys quoted between 20 and 30 to 1 on the same players.

Before the first round the favorite with the players (and don't think they don't bet plenty) was Johnny Revolta, Abraham Lincoln's double from Chicago. They don't care so much for him today, however, as he took an 8 on the third hole yesterday. Sarazen, not a man to mince words, says that if Sam Snead, the West Virginia yearling, doesn't win a major tournament this year he never will. "If you don't win when you're hot," Sarazen opined, "you never will win." Experience is a bunch of highly over-rated feathers. Horton Smith, foremost exponent of good and clean living, has bran and milk for dessert each night. Most frequent question asked by the gallery: "Why isn't Lawson Little playing?" Little can't play until he serves his apprenticeship as a pro. Speaking of Little, his comrades say he never will be a real winner until he quits shutting the face of his club on every shot. This is too technical for me, so there will be no explanation. The boys played the first round in record time yesterday. The reason: They were all anxious to be off to Forbes Field and a peek at Carl Hubbell. The baseball players were all out in the morning to watch the golfers. Henry Picard is a violent objector to match play. He thinks medal the only fair test of golf. Ben Richter of St. Louis is the only southpaw in the field.

Birth of a son, Andrew R. Webster, to Mr. and Mrs. Cedric R. Webster, of Diamond, on May 22, was of record Wednesday at the courthouse.

The Lockett wool clip of 4300 fleeces in Arizona, sold for 40 cents a pound.

## LIONS TO NAME OFFICERS ON TUESDAY

Regular election of officers will constitute the principal business at next Tuesday's meeting of Placerville Lions, at luncheon at Hotel Raffles.

At their meeting on Tuesday of this week, the Lions heard a brief talk by Lion Father John Barrett, who leaves this week-end for Orleans, Trinity County. Father Barrett expressed his appreciation for the way in which his labors in this field has been received, and mentioned his happiness at the advancement of fellowship through the local Lions' Club. Rev. Harold Morehouse spoke briefly in response.

This brown flannel dress worn by Betty Furness, screen player, takes its inspiration from the Tyrolean. It is embellished by a gaily colored yarn flower design.

## Bay Bridge Third In U. S. For Toll Traffic

The San Francisco-Oakland Bay Bridge ranks third in the United States in amount of traffic for a toll crossing. This was revealed today by Chief Engineer C. H. Purcell, state highway engineer, in a report on six months' operation of the giant 8 1/4-mile structure.

According to traffic figures for the month of March, gleaned from the leading toll crossing, the Bay Bridge is exceeded only by the Holland Tunnel of New York and the Delaware River Bridge at Philadelphia. The figures show:

Holland Tunnel, New York, 1,005,277; Delaware River Bridge, Philadelphia, 866,568; San Francisco-Oakland Bay Bridge, 766,315; Triborough Bridge, New York, 698,091; George Washington Bridge, New York, 492,027; Covington-Cincinnati Bridge (Feb. figures), 294,608; Louisville Bridge, 139,512; Carquinez Bridge, 127,363.

From November 12, 1936, when the first vehicle to pay toll crossed the San Francisco-Oakland Bay Bridge to May 11, 1937, six months later, 4,408-

692 vehicles had used the bridge.

The report said that during the last full year of ferry operation without bridge competition (1935), approximately 4,000,000 vehicles crossed between San Francisco and East Bay points.

Combined bridge and ferry traffic in 1937 will exceed 9,000,000 vehicles, an increase of 125 per cent over 1935, 25 per cent of which may be attributed to general business recovery. Thus it is evident that the San Francisco-Oakland Bay Bridge has not only facilitated motor travel between San Francisco and the cities of the East Bay shore and the region beyond, but may be said to have stimulated this motorized communication 100 per cent.

## PARADE OF SPORTS

By HENRY McLEMORE  
(United Press Staff Writer)

PITTSBURGH (AP)—A few pitch and runs from the National P. G. A. tournament: Al Espinosa, the Mexican Treadoer, could do no better than two over par in the first round. Tony Manero, the moustachioed gentleman who came out of the hills of North Carolina to win the national open with a record score last year, is a bit disappointed by the money the title has earned him. Tony expected to do what Hagen and Sarazen and Armour did with the title. He hasn't—not by a long ways. The smallest player in the field is Clarence Hockey of Kansas City, who barely scales 106 pounds with all his corn plasters in place. Clarence plays in a flaming yellow silk shirt and the boys call him "Jockey" Hockey. He lacks just 120 pounds of being as heavy as Olin Dutra, the former open king. The most harrowing sight to pros arriving early at the Pittsburgh field club was the heavy roller a gang of Artisans were pushing across the 18th green. They recalled with anguish the famous "concrete" greens of Oakmont two years ago.

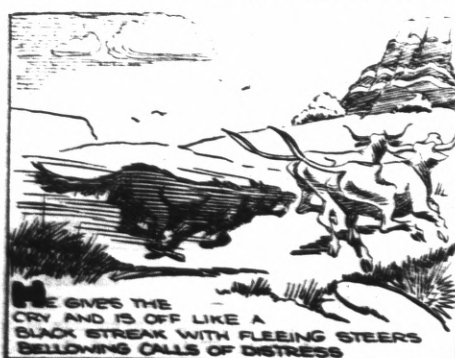

Charlie Hall of Birmingham, former president of the P. G. A., who admits to the age of 54, is the oldest competitor in the field. He is just 31 years the senior of the youngest entrant, John Malutic of Youngstown, Ohio. Charley, in the days of the gully ball, was the longest hitter in the game. He did all right by himself off the first tee yesterday when he slammed one nearly 300 yards. Gene Sarazen finally has admitted that old age has crept into his bones, so he has lightened his clubs and shortened his swing. Gene, who is quite the gentleman farmer these days, has asked the officials to scatter a few crows about the course. "It would make me feel at home," he said, "and would undoubtedly take ten strokes off my game." Billy Burke, who wore down George Von Elm in the famous

## Ordinance No. 668

AN ordinance calling a special election for the purpose of submitting to the voters of the City of Placerville, State of California, the proposition of incurring a bonded indebtedness of said City of Placerville for the acquisition, construction, and completion of the following municipal improvements of said city, to-wit: The installation and construction of sewer lines and intercepting sewers; the acquisition of the necessary rights of way therefore; the erection and construction of a sewage treatment plant, and appurtenances thereto, and the acquisition of lands and rights of way necessary therefore; fixing the date of said election and the manner of holding the same; providing for notice to be given of said election called hereby.

The City Council of the City of Placerville, do ordain as follows:

THAT WHEREAS, the City Council of the City of Placerville, State of California, did on the 4th day of January 1937, by a vote of more than two-thirds of all of its members, duly adopt its resolution No. 240 (which said resolution was approved by the President of the City Council and Ex-officio Mayor of said City on the said 4th day of January 1937), whereby it was determined that public interest and necessity demands the acquisition, construction and completion of the following municipal improvements to-wit: the installation and construction of sewer lines and intercepting sewers; the acquisition of the necessary rights of way therefore; the erection and construction of a sewage treatment plant, and appurtenances thereto, and the acquisition of lands and rights of way necessary therefore, and further determining that the cost of the same is and will be too great to be paid out of the ordinary annual income and revenue of said city.

NOW, THEREFORE, the City Council of the City of Placerville, do ordain as follows:

Section 1. A special election is hereby called and ordered to be held in the City of Placerville on Tuesday, the 1st day of June, 1937, at which election there shall be submitted to the qualified voters of the City of Placerville, State of California, the proposition to incur a bonded indebtedness of said City as follows, to-wit:

### PROPOSITION

A proposition to incur a bonded indebtedness of the City of Placerville, State of California, in the sum of Fifty Thousand Dollars (\$50,000) for the following municipal improvements of said City, to-wit: The installation and construction of sewer lines and intercepting sewers; the acquisition of the necessary rights of way therefore; the erection and construction of a sewage treatment plant, and appurtenances thereto, and the acquisition of lands and rights of way necessary therefore.

Section 2. The estimated cost of the municipal improvements referred to in Section 1 of this ordinance, under the designation "Proposition," is the sum of Eighty Thousand Dollars (\$80,000.00). The amount of principal of said indebtedness proposed to be incurred for said municipal improvement is the said sum of Fifty Thousand Dollars (\$50,000.00).

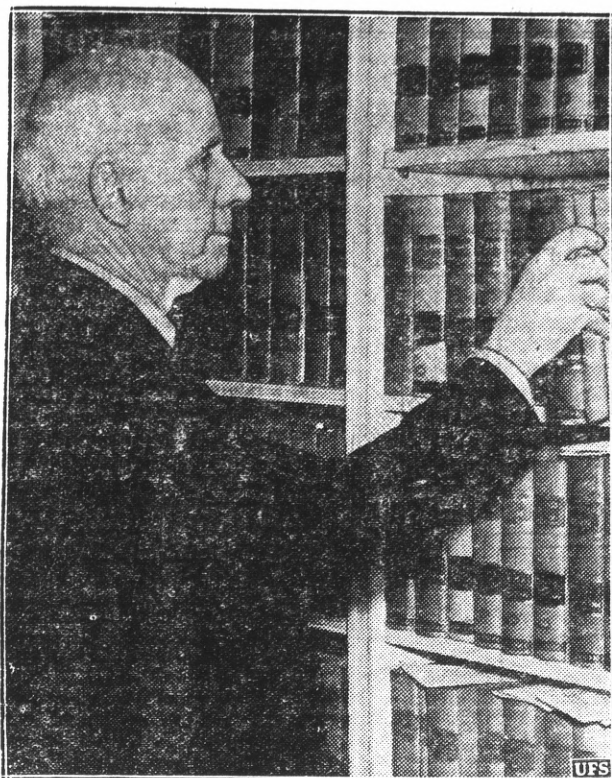

That it is contemplated that the difference between said estimated cost of said improvement and said amount of the principal of said indebtedness to be incurred, as above set forth, will be advanced by the United States of America, or a department or agency thereof. None of said bonds shall be sold or issued unless prior to the sale or issuance thereof the City Council of the City of Placerville shall by resolution find and determine that the United States, or some department or agency thereof, has made, or agreed to make, to said City of Placerville, a grant in an amount which, when added to the said amount of principal indebtedness to be incurred, will be sufficient to complete the improvement for which said bonds are to be issued and sold.

Section 3. Said bonds shall be of the form and character known as Serials, being general obligation bonds.

Section 4. The City Council does hereby submit to the qualified voters of said City, at said special election, the said proposition which is hereinbefore set forth and designated in the form of a ballot hereinafter prescribed for use at said election.

Section 5. The polling place of said election shall be opened at the hour of six o'clock A. M. of said day and shall be kept open continuously thereafter until the hour of 7:00 o'clock in the evening of said day of election, when said polls shall be closed, provided, however, that if at the hour of closing there are any voters in the polling place or in the line at the door who are qualified to vote and have not been able to do so since appearing at the polls, the polls shall be open a sufficient time to enable them to vote, but no one who shall arrive at the polling place after the hour of 7:00 o'clock P. M. shall be entitled to vote, although the polls may be open when such persons arrive. No person shall be entitled to vote at said election who does not possess all of the qualifications required of electors under the general election laws of the State of California. After the closing of the polls at the hour of 7:00 o'clock in the evening of said day as herein provided, the election officers shall thereupon proceed to canvass the votes cast thereat.

Section 6. Said special election shall be held and conducted and the votes thereof canvassed and the returns thereof made and the result thereof ascertained and determined as herein provided; and in all particulars not prescribed by this ordinance, said election shall be held as provided by law for the holding of municipal elections in said City. The returns of said election shall be made out and signed by the election officers and shall be by them deposited with the City Clerk, together with the ballots cast at said election. If, upon the canvass of the ballots cast at said election which shall be made on the first Monday after said election, it shall be found that at least two-thirds of the qualified electors voting at said election

**RESIGNS**—Associate Justice Willis Van Devanter shown resigning from the Supreme Court to President Roosevelt. The 78-year-old jurist will retire to his farm in Maryland.

Umatilla County, Oregon, will have 22,000 acres of canning pears.

voted in favor of said proposition, then bonds of the said City of Placerville in the aggregate amount of Fifty Thousand Dollars (\$50,000.00) will be issued and sold by said City for the purpose aforesaid.

Section 7. Only one form of ticket or ballot shall be used at said special election, which ticket or ballot shall (among other appropriate matters) have the following proposition, and no other printed thereon:

PROPOSITION: Shall the City of Placerville incur a bonded indebtedness in the principal sum of Fifty Thousand Dollars (\$50,000.00) for the following municipal improvement of said City, to-wit: The acquisition, construction and completion of the following municipal improvements, to-wit: The installation and construction of sewer lines and intercepting sewers, the acquisition of the necessary rights of way therefore; the erection and construction of a sewage treatment plant, and appurtenances thereto, and the acquisition of lands and rights of way necessary therefore.	
YES	
NO	

Section 8. That for the purpose of said election all voting precincts within the said City of Placerville shall be consolidated into one voting precinct and that for the purpose of said election the entire City of Placerville shall constitute one election precinct, the boundary of which shall be co-terminous with the boundaries of said City; and all other election precincts of said City heretofore established are hereby consolidated for that purpose. The polling place in said precinct and the election officers appointed to conduct said election are as follows, to-wit:

Consolidated Precinct No. 1 embracing all of the territory within said City.

Inspector: Mrs. Gertrude Cornelison.

Judge: Mrs. Florence Eskew.

Clerk: Mrs. Wigglesworth.

Clerk: Mrs. Florence Rayburn.

Section 9. Each voter for said proposition, hereby submitted, and for incurring a debt therefor shall stamp a cross (X) in the blank opposite the word "YES" on the ballot to the right of such proposition and to vote against said proposition, hereby submitted, and against incurring a debt therefor shall stamp a cross (X) in the blank opposite the word "NO" on the ballot to the right of such proposition.

All voters qualified at the time of said election to vote at municipal elections of said City are entitled to vote by the laws governing such special elections.

Section 10. The City Clerk of the City of Placerville is hereby directed upon the passage and adoption of this ordinance, to publish the same at least seven days in the Placerville Republican, a newspaper of general circulation, printed, published and circulated within the City of Placerville daily, except Sundays and holidays (being at least six days a week). No other notice of the election hereby called need be given.

Section 11. This ordinance shall take effect immediately upon its passage and approval.

The above ordinance was introduced at a regular adjourned meeting of the City Council of the City of Placerville on the 10th day of May, 1937, by City Councilman Frost, who moved its adoption; the motion was then seconded by City Councilman Pierson and a poll vote taken which stood as follows:

Ayes: Faugsted, Frost, Raber, and Pierson.

Noes: None.

Absent: F. N. Hosking.

The motion, having more than two-thirds majority votes aye, the ordinance was declared to have been passed and adopted and it was so ordered.

Approved: GEORGE E. FAUGSTED, President of the City Council of the City of Placerville and ex-officio Mayor of said City.

ATTEST: ESTHER A. MAHLER, City Clerk of the City of Placerville. (SEAL)

May 18-71-May 25th.

## RAM SALE, WOOL SHOW OPENS THURSDAY

SAN FRANCISCO—A cordial invitation to attend the California Ram Sale and Wool Show has been issued by Frank C. Clarke, president, California Wool Growers' Association, under whose management this stellar event in western sheep circles is held each year. This sheep and wool classic will open this week at the state fair grounds, Sacramento, Thursday and Friday, May 27th and 28th.

"The ram sale and wool show," Mr. Clarke said, "exert a great influence for better lamb and wool production not only in California but in our sister states and Canada as well. The impulse it has given the ram breeders to breed better animals, more nearly adapted to our western conditions, is truly remarkable. This is shown not only in the recent splendid development of some of our old established breeds but in the outstanding progress made in developing new types and breeds to meet present day market demands.

Meeting sheepmen from other sections and states and even from foreign countries at the sale (Russia, Australia and Canada last year) exchanging ideas, comparing notes, discussing the merits of the sheep on exhibition, are all well worth-while, he pointed out.

The meetings of the sheep breed associations, the annual spring Sacramento meeting of the Board of Directors, California Wool Growers' Association and its advisory committee, during the period of the sale at Sacramento, make this gathering an important yearly event which no wool grower can afford to miss.

"We'll look for you at Sacramento, May 27th and 28th," he stated.

## 3-DAY WEEK-END HAS VARIED ATTRACTIONS

From May 27 to June 2, visitors from all over the West will be flocking to San Francisco for the Golden Gate Bridge Fiesta, to be held in celebration of the opening of the Golden Gate Bridge.

While thousands will be heading for San Francisco, other thousands will take advantage of the three-day holiday to go into the mountain areas, fishing, opening up cabins for the summer season and kindred activities.

One of the most outstanding events will be the 13th district Agricultural Association's presentation of the California Stampede at Marysville, over Sunday and Monday. Rodeo events consist of calf roping contest, bronc riding, steer wrestling, bull riding, steer roping, bronc riding, horse racing, horse show and live stock fair, and many other entertainment features.

Santa Cruz, over Saturday, Sunday, and Monday will have a complete program of entertainment for visitors. Memorial Day exercises and parade are scheduled for Monday morning, and in the afternoon, some thirty or more outboard motor boats from all over the state will compete for special prizes.

At Clearlake Highlands, on Saturday and Sunday, amateur boat races will be held for boats of all classes, including sail boats. Fishing is good in Clearlake, and many will visit the region for this purpose.

From May 28 to June 6, Huntington, Beach, keeping up with the times, is having the first Pacific Coast trailer convention, with a trailer queen, a trailer outing show, with exhibits from fifty manufacturers, and a host of amusements and entertainment for the delegates to the convention.

## Lecture Is Given On Christian Science

James G. Rowell, C. S. B., of Kansas City, Missouri, member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, spoke Tuesday evening at the Shakespeare clubhouse on the subject, "Christian Science: 'On Earth Peace, Good Will Toward Men.'"

The following is a synopsis of the lecture:

Righteous prayer is the sure road to peace—peace of mind, peace between men and nations, peace with oneself. "Cleanse thou me from secret faults," voices human aspiration for good, for peace. The prayer of petition, however, often fails to take account of spiritual reality. Prayer which is the affirmation of spiritual fact does this and assures humanity of the presence and power of divine Love. We must know and feel that God is Love; that He is Life; that He is Truth, and that man reflects Him. We must know and feel, too, that divine Love loves us and allows nothing to separate us from Him. Abiding in spiritual truth and

practicing it daily in our lives will bring to us our heritage of peace.

Christ Jesus demonstrated "peace on earth, good will to men" by healing them, through prayer, of sorrow, sickness, and sin. To Mary Baker Eddy we owe the discovery of the scientific nature of true prayer—the method which Jesus used in his healing work. She not only learned how to follow the example of Jesus by healing scientifically, but she taught others how to do these very works as Jesus said his true followers must do. We who are here tonight are, all of us, beneficiaries of the patient, self-forgetful love of this motherly New England gentlewoman. God's "good will to men," His peace, is now available to all through His laws, as explained by Mrs. Eddy in her published writings. Love for God and grateful appreciation of all who have labored unselfishly for us will help us to understand and to enjoy this flawless peace—the "peace on earth" heralded by the messengers of divine Love so long ago. Jesus is the Way-shower. Mrs. Eddy's spiritual-mindedness and purity of purpose made of her the Discoverer of the spiritual laws and rules which governed Jesus' demonstration of the way.

The desire that the will of God pre-

Vinton R. Veerkamp, new 4-H county council chairman, was a caller at the Farm Advisor's office Wednesday. It's "Vinton R." and not "Vinton H."

vail is a form of true prayer. Striving to let that Mind be in us which was in Christ Jesus is true Christian prayer. Abiding in Truth and practicing it daily in our lives will bring to us our heritage of peace. Jesus' sublime humility was voiced, as explained in our textbook (Science and Health, p. 33), as "Not my will, but Thine, be done—that is, Let not the flesh, but the Spirit, be represented in me." This renunciation of all allegiance to human will led Jesus to victory over death itself—to the enjoyment of that peace which is life eternal.

We must pray, watch, and work for peace, but we must do this scientifically. We must realize that the peace of God is a reality, the presence of which can be, indeed must be, proved by each one of us. This divine peace is not concealed from spiritual sense, for as we watch, work, and pray for spiritual understanding, we are enabled to see more clearly God's will done on earth—His omnipotence and omnipresence proved—His peace, our peace.

## Council Favors Sewer Bonds

(Continued from Page 1)  
with governmental aid, a saving of from 26 to 30 thousand dollars, to the voters of the city will be realized.

"It should be noted that the rate of interest on the proposed bond issues will not exceed 4 per cent and the City Council has very good assurance that it will be able to dispose of its bonds at a rate of interest lower than 4 per cent. However, assuming that the city does pay 4 per cent per annum on the proposed bonds, the total of interest for the first year on this issue will be \$2,000 and retiring one-fourth of this amount or \$1,250 each year will make an amount necessary to be raised for the first year the sum of \$3,250.

"The total assessed valuation of the city is \$1,724,330 and allowing \$50,000 for delinquencies leaving the balance \$1,674,330 upon which to work and on this basis a tax of between 19 and 20 cents per \$100.00 of the assessed valuation will be necessary to raise the required \$3,250 for the first year.

"Inasmuch as the city is retiring bonds at the rate of five per year, and thus reducing its interest charges, it is estimated that a saving on last year's tax rate can thus be effected so that the actual increase in taxation will not for the first year, exceed 15 cents per \$100.00 of the assessed valuation thus making the tax for the coming year around \$1.80 per \$100.00 or five cents less than the maximum rate of a few years ago with the rate decreasing each succeeding year, and there is every reason to believe that the City Council can effect a future saving and make the tax rate even lower than the above estimate.

"However, should the bond election fail and the city, at some subsequent time, be compelled under an order of the State Board of Health, to install a suitable sewer system and sewage disposal plant which would require an expenditure of \$80,000 and make necessary the raising of \$520,000 for the first year, the city would then be faced with the necessity of increasing taxes for the first year working under compulsion from the State Board of Health, by approximately 30 cents per \$100.00 of assessed valuation and that is on the basis of 4 per cent interest whereas there is no assurance that the present condition with money at as low a rate of interest will remain for any definite length of time and the city may be compelled again to pay as high as 5 per cent per annum on bonds issued at some subsequent time. Certainly, the city has never been in a better position for the purpose of issuing bonds than at present, with low interest rates, its bonded indebtedness at a lower figure than at any time for the past nine years, the possibility of obtaining outside help in the construction and installation of this much needed improvement, and all of its other major projects out of the way. This year will make its last payment on the fire department equipment, purchased six years ago, and this equipment is still in excellent shape and the City Council feels that this is the last major improvement that will be required for many years. The sewer project and the disposal plant, proposed to be constructed, is estimated to be adequate for a city of from five to six thousand population and the sewage disposal plan can always be enlarged at very little expense. The plant itself can be operated by one of the city employees, on a part time basis, and the city has made arrangements for disposal of the water after treatment.

"The project consists of a plan to install sewer mains on concrete piers along Hangtown Creek to a short distance below the westerly city limits, the mains extending to the easterly city limits and, for a short distance up some of the tributaries, thus giving the entire city the benefit of this disposal system. The plans are on file in the city hall and are open to inspection by anyone, and anyone of the members of the City Council or any city official will be glad to give all the information anyone desires on this question.

"The plan, under which this proposal is submitted to the voters, has been prepared by Harry N. Jenks, a sanitary engineer of many years of experience and competent in all ways to pass upon all phases of the subject. He has been working with the City of Placerville, having made his first study a number of years ago under a former city councilman and has already submitted his plans to the Public Works Administration where the same has been approved and if the bond election is successful and the work performed, it will not only be constructed under his supervision but also under the supervision of government engineers. The work, will, of course, be performed by contract so that the actual cost will be known to the city and there can be no material deviations in the plans as already outlined. There is

## 3 Million Loss In Fires

1936 Season Worst  
In History, State  
Forester Avers

SACRAMENTO (UP)—The worst forest fire season in history, attributable principally to careless smokers, incendiaries and debris-burners, devastated 946,850 acres in California during 1936, according to a compilation by Merritt B. Pratt, state forester.

Pratt's survey estimated financial loss from the conflagrations, some of which ate into the state's most beautiful redwood forests, was \$3,173,705. During the year, 6,113 fires were reported, with a majority believed to have started from cigarette butts or matches thrown carelessly aside. Such thoughtlessness was responsible for 1,364 of the 3,905 fires which swept over lands directly under the protection of the state division of forestry, Pratt said.

More than half a million acres of brush and grasslands were blackened, while 111,292 acres of lumber timber, valued at \$1,083,149, were razed. Losses from blazes which burned over 40,000 acres of young timber stands were estimated at \$137,977.

Agricultural lands were damaged to the extent of \$1,041,462. Watershed losses totaled \$610,091, with range damage amounting to \$301,026.

While nature was starting only 139 fires, arsonists touched off 724 blazes. Lightning kindled 111 in forest areas and 28 at valley points.

Comparison of the 1936 record with that of 1935 evidenced the extent of the fire damage. Although 5,478 fires were reported during the previous year, only 242,349 acres were burned for losses estimated at \$819,751, Pratt said.

## FARM WOMEN IN ALL-DAY MEET TUESDAY

Four-H clothing club leaders and members of the county farm home department attended an all-day meeting Tuesday at the Coloma Community Hall, supervised by Miss Verna Frame, demonstration agent for the University Extension Service.

The meeting concerned itself with general sewing, the fitting of garments and the selection of materials for various uses.

Those who attended took their lunches and spent the greater part of the day at the meeting.

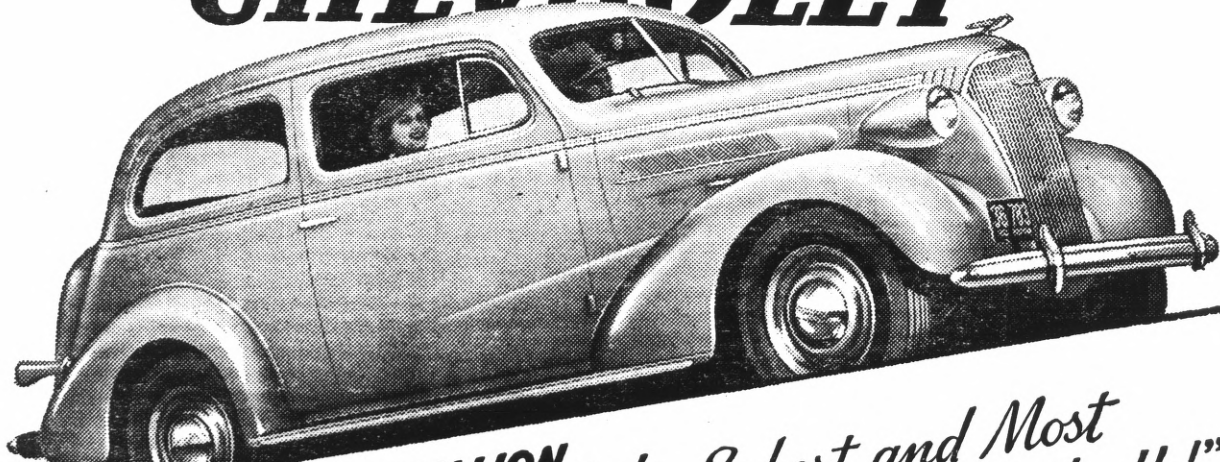

James Kelley and sister, Miss Margaret Kelley, were in town from Kelsey on Wednesday.

no intention to expend more than the proposed \$50,000, nor is there any intention of expending even that amount unless a grant of sufficient amount is obtained to insure the completed project. In fact, it would be legally impossible for the City Council to sell or issue the bonds for any other purpose except the completion of the entire project consisting of both the sewer mains and the sewage disposal plant so that the voters may rest assured that if some grant is not obtained from the government, no expenditures will be made and the bonds will not be issued or sold.

"In submitting this proposition to the voters, the City Council felt that it was the right of the voters to decide for themselves as to whether or not the city should attempt to avail itself of the offer of governmental aid, or whether the city should wait until the State Board of Health, acting either to prevent a wide spread epidemic or else acting because of some epidemic caused by the present system, compels the city to install this improvement. The question is one that the City Council felt should rest with the people and not with the Council itself and for that reason is submitting this question to the voters. While the City Council feels that the proposition should carry and that the people should put the city in a position of taking advantage of governmental aid it does feel that the problem is a problem of the people more than the problem of the City Council and that in having submitted the proposition to the voters the City Council has done its duty; that the question of the future health of the city and the surrounding territory is the responsibility of the voters of the city and that the voters should not shirk this duty on Tuesday, June 1st, but should turn out in large numbers so that a representative vote can be had. It is sincerely hoped that the vote of every right-thinking person will be a vote for progress and a vote in favor of health and sanitation and not a vote in favor of the antiquated sewage disposal system now in effect in the City of Placerville.

"George E. Paugsted, F. N. Hosking, Philip Frost, J. K. Pierson, M. E. Rafter, City Councilmen."

# CHEVROLET
